

BLAZE 80L

USB RECHARGEABLE

Get to Know Your Gear

RECHARGE IT

The BLAZE features a mini-USB input port so you can recharge the light easily, whenever you need to. Indicator light lets you know when it's fully charged.

FOCUS IT

Adjust your angle of light from wide to spot.

LIGHT IT

With an LED bulb that produces 80 Lumens, the BLAZE offers plenty of light.

POWER IT

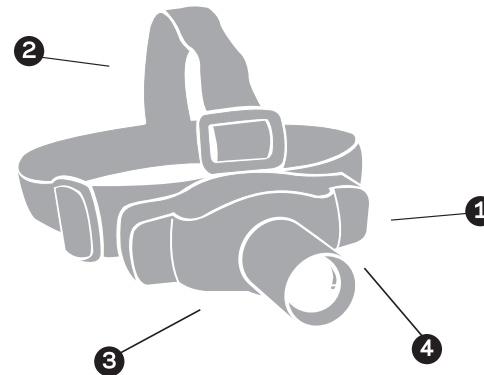

Click button once for high beam, twice for low beam.

Getting Started

1. Be sure to **ACTIVATE YOUR WARRANTY** at www.GOALZERO.com/warranty
2. To charge, open rubber protective cover to reveal mini-USB port, connect your BLAZE to any USB out port via mini-USB to USB adapter cable (included).
3. Press the button on front to turn the BLAZE on, once for high beam, twice for low beam.
4. Cylinder on BLAZE slides to focus, slide all the way to base for wide angle, pull forward for spot focus.

How to use your gear

- 1 **Plug It In**
Charge your headlamp with included USB to mini-USB cable.
- 2 **Put It On**
Place headlamp around the top of your head, and adjust the elastic straps.
- 3 **Turn It On**
Press power button once to turn the headlamp on. Press twice for low beam. Press a third time to turn it off.
- 4 **Focus the Beam**
To tighten the focus of the beam, pull lens forward.

AC USB charger

Frequently Asked Questions

How do I know when it's charged?

While charging, the red light on the headlamp will be flashing. When fully charged, light will turn to solid green.

Is it waterproof?

The BLAZE is not waterproof, but will hold up under inclement weather.

Is the battery replaceable?

Yes. The 3.7V CR123 battery is a common battery that can be found. Remember this is made to be rechargeable, so ensure you use a Lithium rechargeable battery.
