

BOLT 160L
USB RECHARGEABLE

Get to Know Your Gear

LIGHT IT
The BOLT can be used in high and low beam modes.

FOCUS IT
Twist the silver ring on the head of the BOLT to adjust the focus of the beam.

CHARGE IT
Recharge from any USB.

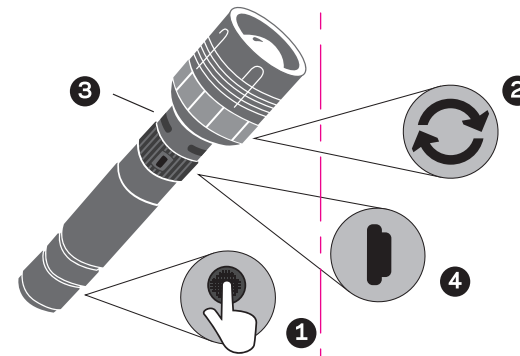

POWER IT
Click button to switch between high and low.

Getting Started

1. Be sure to **ACTIVATE YOUR WARRANTY** at www.GOALZERO.com/warranty
2. Use with GOAL ZERO GUIDE 10 PLUS Rechargeable power pack and NOMAD 3.5 Solar Panel. Will also charge from wall, outlet and USB charger like a laptop.

How to Use Your Gear

- 1 **On/Off Button**
Switch between 100 and 50% brightness by pressing power button on and off; or by pressing half way while unit is on.
- 2 **Focus Zoom**
Twist the ring at the head of the flashlight to adjust from wide angle to spot.
- 3 **Indicator Light**
The charging indicator light is below the flashlight head. Red light indicates charging. Green light indicates full charge.
- 4 **USB Charging**
To charge, rotate the rubber ring below the indicator light to reveal mini-USB port. Plug into the mini-USB, then plug other end of the cord into a USB power source.
