

Get to Know Your Gear

USE IT

The CHUBBY has lantern and flashlight modes for two different ranges of light.

POWER IT

Power with 3 AA batteries.

HANG IT

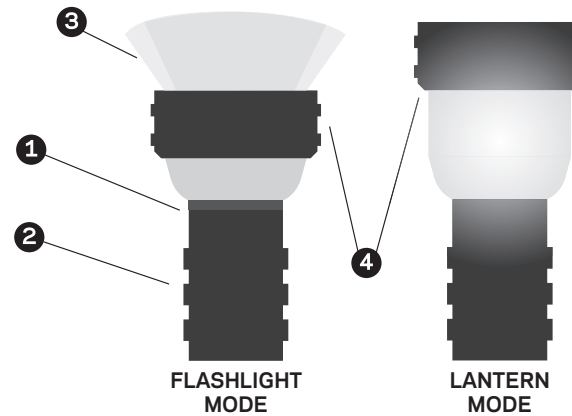

The CHUBBY can easily be hung from the cord located on its base.

Getting Started

1. Be sure to **ACTIVATE YOUR WARRANTY** at www.GOALZERO.com/warranty
2. Unscrew the CHUBBY at the neck of the handle.
3. Insert 3 AA batteries. Make sure the batteries are oriented in the correct way.
(We recommend the GOAL ZERO NiMH rechargeable batteries.)
4. Re-attach base to neck.
5. Follow the guidelines on the black rim to twist the light on.

How to Use Your Gear

- 1 **On/Off**
To turn the CHUBBY on/off simply twist it in the direction the arrow indicates.
- 2 **Batteries**
The CHUBBY requires 3 AA batteries.
- 3 **Light**
3 AA batteries will run for approximately 3 hours.
- 4 **Dual Modes**
To switch between flashlight mode and lantern mode pull the black rim up or down.

Warranty	12 months
Optimal Operating Temp.	32-104°F (0-40°C)
Optimal Storage Temp.	32-86°F (0-30°C)

Frequently Asked Questions

Is my CHUBBY waterproof?

It is water resistant and meant to hold up in inclement weather.

How do I turn my CHUBBY on?

Simply twist the neck of the light to the direction indicated on the arrow. If you twist it too far, you will start to open the battery compartment.

How do I know if my CHUBBY is getting power?

Simply test the light by turning it on. If it is running low on juice, the light will be very dim, and you should consider recharging. Be sure to check the batteries to ensure they are oriented the correct way.

What kind of battery should I use?

Any AA battery will work, but for best results, so you can use again and again we recommend the GOAL ZERO rechargeable AA batteries that can be purchased at www.GOALZERO.com.

Compatible With

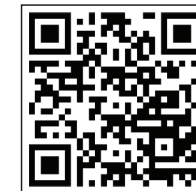

GOAL ZERO products:

Rechargeable AA batteries
