

ESTRELLA™₃

3 WATT LED LIGHT

Get to Know Your Gear

POSITION IT

With a 15" bendable cord, the ESTRELLA light is able to be positioned any way you need it.

PLUG IT

The ESTRELLA has two cord options that are easy to switch out.

LIGHT IT

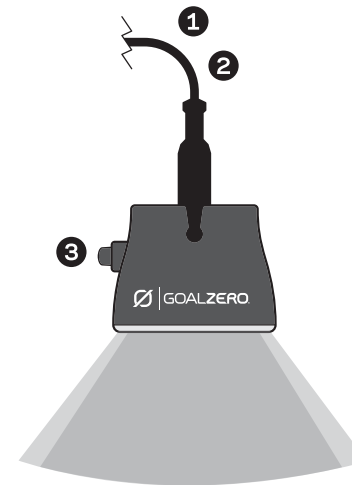

The ESTRELLA light uses a 3 watt LED bulb to generate a ton of light from a small device.

Getting Started

1. Be sure to ACTIVATE YOUR WARRANTY at www.GOALZERO.com/warranty
2. Attach the head of the ESTRELLA to the 15" bendable cord.
3. Plug the bendable cord into the 12v input on any GOAL ZERO SHERPA power pack.
4. Make sure the ESTRELLA and the SHERPA power pack are switched to the "On" position.
5. Position the light.

How to Use Your Gear

- 1 **Plug it in**
Attach your ESTRELLA to a 12v power source (GOAL ZERO power pack recommended.)
- 2 **Daisy chain it**
Chain up to 8 ESTRELLA's together for more light.
- 3 **Turn it on**
Flip the switch to the "On" position for light.
