

HALO 120L

LIGHT/LANTERN

Get to Know Your Gear

USE IT

The HALO has two modes. Switch between flashlight mode and ambient lantern mode.

POWER IT

The HALO uses 3 AA batteries.

PLACE IT

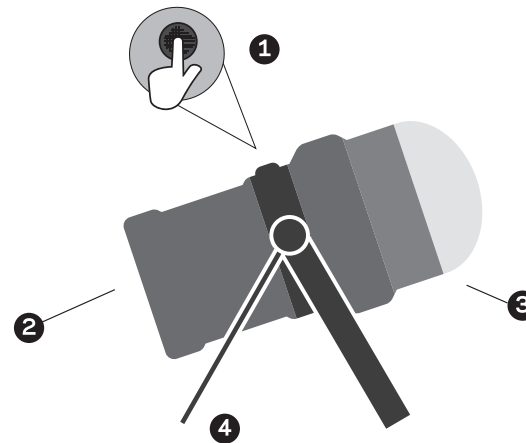

The HALO can be easily propped up or hung anywhere from its 2-support stands for hands free use.

Getting Started

1. Be sure to **ACTIVATE YOUR WARRANTY** at www.GOALZERO.com/warranty
2. Unscrew the HALO at the base by twisting counterclockwise.
3. Insert 3 AA batteries (we recommend the GOAL ZERO NiMH rechargeable batteries).
4. Re attach base.
5. Click the black button to turn it on.

How to Use Your Gear

- 1 **On/Off Button**
Click the black button once for lantern mode and twice for flashlight mode. Click it a third time to turn off.
- 2 **Batteries**
The HALO requires 3 AA batteries.
- 3 **Light**
3 AA batteries will run for approximately 3 hours.
- 4 **Stands**
Separate the black leg from the metal leg and angle the HALO's body to where you want the light to aim.

Warranty 12 months
Certifications CE
Optimal operating temp. 32-104°F (0-40°C)
Optimal storage temp. 32-86°F (0-30°C)

Frequently Asked Questions

Is my HALO waterproof?

It is water resistant and meant to hold up in inclement weather.

How do I know if my HALO is getting power?

Simply test the light by turning it on. If it is running low on juice, the light will be very dim, and you should consider recharging. Be sure to check the batteries to ensure they are oriented the correct way.

What kind of battery should I use?

Any AA battery will work, but for best results that you can use again and again we recommend the GOAL ZERO rechargeable AA batteries that can be purchased individually or with the GUIDE 10 PLUS battery pack.

Compatible With

GOAL ZERO products:
RECHARGEABLE AA BATTERIES
