

## Get to Know Your Gear

### HEAT IT

The STEAMER heats and maintains beverages up to 150° F.

### STORE IT

The insulation layer on the STEAMER will keep your drinks warmer, longer.

### CHARGE IT

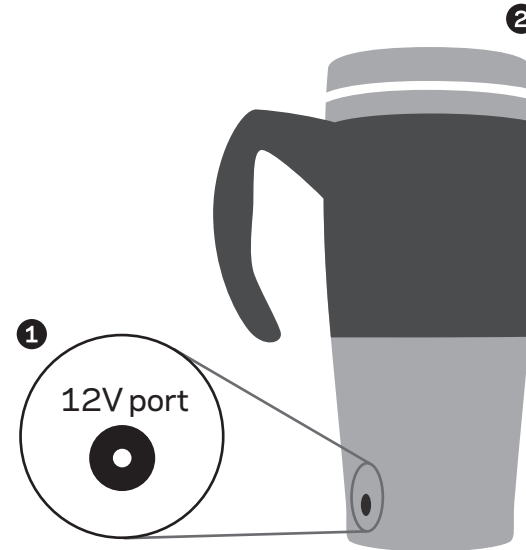

Heat your drinks on-the-go with GOAL ZERO power packs or 12V car adapter port.

## Getting Started

1. Be sure to **ACTIVATE YOUR WARRANTY** at [www.GOALZERO.com/warranty](http://www.GOALZERO.com/warranty)
2. Plug barrel jack end of your plug into the STEAMER.
3. Place lid on STEAMER. To close properly, press down firmly while twisting.
4. Plug 12V car adapter plug into a 12V outlet power source.

## How to use

- 1 **Plug it in**  
The STEAMER can be used with any GOAL ZERO power pack that includes a 12V car adapter port.
- 2 **Place Lid on STEAMER**  
To close properly, press down firmly while twisting.
- 3 **Hot Beverages**  
It is not recommended to drink your hot beverage while at maximum temperature.

<b>Internal</b>	
Heating element	25W
Temperature switch	200°F (93°C)
<b>General</b>	
Weight	.5 lbs (0.20 kg)
Volume	15.2 fl oz (450ml)
Dimensions	5x3.5x6 in (12.7x 9x15 cm)
Warranty	12 months
Certifications	CE
Operating temp.	150°F (65°C)

## Comes With

12V Car Adapter

## Frequently Asked Questions

### How long does it take to heat to maximum temperature?

Typically it is 20-30 minutes, but heating time can vary based on exterior variables (environment, sunlight, starting temperature, etc.).

### What can I heat in the STEAMER?

Virtually any fluid; coffee, tea, hot chocolate, water, soup and more.

### Is the STEAMER dishwasher-safe?

It is not. We recommend washing the STEAMER by hand. Do not submerge.

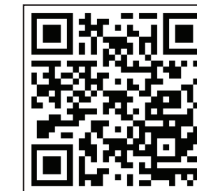

## Compatible With

### GOAL ZERO products:

SHERPA power packs  
EXTREME 150  
EXTREME 350i
