Frequently Asked Questions
Q. Is the Sherpa Inverter waterproof?
A. No. Do not use the Sherpa Inverter if it is wet. If it gets wet, allow it to dry completely before using.

Q. Can I use the Sherpa Inverter with chained Goal Zero Sherpa Power Pack?
A. Yes, but make sure to attach Sherpa Inverter and chaining cord, and turn on all Sherpa Power Packs.

Q. Can I use the Sherpa Inverter as a standalone source of power?
A. No. The Sherpa Inverter is specifically designed to enhance the capabilities of the Sherpa Power Pack. It is NOT a battery, and cannot power items on its own.

Q. Do I have to have a Sherpa Power Pack to use my inverter?
A. The Sherpa Inverter can be used with the Sherpa Power Pack as well as any car with the 12V car adapter included.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
